

Under Armour Uniform Care Instructions

DO NOT DRY CLEAN

DO NOT WASH IN HOT WATER

DO NOT USE CHLORINE BLEACH

DO NOT USE FABRIC SOFTENER

DO NOT WASH WHITES AND COLORS TOGETHER

DO NOT OVERLOAD THE WASHING MACHINE

DO NOT MACHINE DRY ON HIGH HEAT

DO NOT LEAVE WET OR DAMP GARMENTS
IN YOUR TRAVEL BAG, IN A PILE WITH OTHER
CLOTHING, OR IN WASHING MACHINE

*Uniforms should always be laundered immediately after wearing. However, if this is not possible, rinse garments and hang individually on rust-proof hangers. (Moisture may cause color migration of acid dyes so we advise separating wet or damp clothes)

*Belts and any other contrasting color items should be washed separately from the garment.

*It is always advisable to test wash a single uniform according to directions before washing an entire load.

*We recommend presoaking heavily soiled garments in cold water with a protein release agent. Follow the instructions recommended by the presoak manufacturer. Wash garments immediately following the presoak in a normal wash cycle.

*Wash and rinse all garments in cold water with mild detergent. Remove promptly after wash cycle to avoid color migration.

*For optimum results, hang garments (especially those with spandex) to dry. If you cannot hang dry, machine dry on the lowest setting. Turn jerseys inside out before machine drying. Remove items from dryer immediately upon completion of the cycle. (Excessive heat can cause fabric shrinkage, discoloration, and cracking and peeling of vinyl plastisol lettering inks.)

*Make sure uniforms are completely dry before storing. Store in a dry area to prevent mildew. Protect them from sunlight and fluorescent light to prevent yellowing.
